Electronic Supplementary Material
may consist of:

▶ original data that relate to the paper, e.g., tables, additional illustrations, etc.

▶ information that is more convenient in electronic form: sequences, spectral data, etc.

▶ information that cannot be printed: animations, video clips, sound recordings

In the printed article, full reference will be given to the Electronic Supplementary Material and vice versa.

When you prepare your paper please always consult the instructions for authors of your journal. All journals are listed in corresponding online libraries available at
